

## MEET THE TEAM

# RYAN CZAPLENSKI

## Consultant

.....

Ryan began his career at Foundation Software as a client support representative in 2012, before moving on to become a field trainer in 2013 and, most recently, a consultant. His extensive background in customer service both before and after he started at Foundation have made him a valuable resource to brand new and experienced clients alike.

As a consultant, he uses his far-reaching knowledge of FOUNDATION and the construction industry to navigate the complexities of different trade environments and resolve client system issues at lightning speed. He also works with clients on software usage, report writing and provides on-going software support to help ensure they're getting the most out of the system.

### **SPEAKING/WRITING EXPERIENCE**

Ryan has taught numerous courses like Smart Project Management at the Foundation Software User Conferences during his time with the company. He is also a Foundation College trainer who has taught multiple courses across the country.

### **FUN FACT**

Ryan is an avid traveler in his free time, and has visited numerous countries including, Mexico, the Dominican Republic and Jamaica, with South Africa and Australia next on his list!
