

MEET THE TEAM

SCOTT KERN

Software Consultant

Since starting his career with Foundation Software in 2000 as a client services representative, then field trainer, Scott's extensive knowledge of FOUNDATION and the industry has made him an invaluable asset to clients. This experience has also provided a natural extension into the consulting arena, where he has helped hundreds of clients improve their financial management processes.

As a Senior Consultant, Scott utilizes his background and expertise in Microsoft® Excel®, database queries and custom report writing using the SQL database to help clients with pre-implementation, setup, training and the optimization of their workflow using FOUNDATION. He also provides solutions for software integration between third party software, creates custom reports using the SQL database with ODBC connections across multiple reporting tools and has designed numerous custom applications to meet his clients' reporting needs.

EDUCATION

B.S. in Communications (Cum Laude, specialty in A/V Production), Ohio University

SPEAKING/WRITING EXPERIENCE

Scott's experience as an instructor is diverse, with engagements at industry conferences and within live classroom environments. A sampling of the classes he has taught include:

- Concepts in Executive Reporting
- Beginning Job Costing DataGenie
- Advanced Job Costing DataGenie

- Quantities, Units and Percent Complete
- Advanced Data Analysis with Microsoft Excel
- Effective Job Costing
- Microsoft Excel Form Design Using Microsoft Query

FUN FACT

Scott has a gold and platinum album from his brief stint in the recording industry.
