

payroll⁴construction

A Payroll Service **Just**
for Construction

Hello.

Whether you outsource or process in-house, Payroll4Construction is an easier way to take control of your payroll. Inside, we'll show you how to get all your processing, reporting and filing done without the headache.

We're the only payroll service that uses FOUNDATION job cost accounting software behind the scenes. That means you get the full power of America's #1 Construction Accounting Software every time you log in to Payroll4Construction, regardless of whether you use FOUNDATION or another program for your accounting.

Who We Are

Payroll4Construction is part of the Foundation Software family of products. We have decades of experience working exclusively with the construction industry and helping contractors run the business side of construction.

Everything we do is based in-house from our corporate office in Cleveland, Ohio. From development to sales to support, you'll work directly with us.

What **We Offer**

Payroll4Construction is a full payroll processing service specifically for the construction industry. We understand that, unlike with other industries, construction revenue is driven from multiple profit centers.

That's why we focus payroll around the job, giving you accurate cost tracking to make sure your projects are on schedule and cost-efficient.

Printed checks, direct deposits, tax filings and W-2s

Multiple jobs, states, localities, unions, trades and rates on a single timecard

Automated pay and fringe rates

Certified payroll reports (print and electronic)
LCPtracker, EMars, DIR

Union reporting and tracking

Job cost reporting

Live support from construction payroll and tax experts

How We Compare

Outsourcing payroll can save you hours in processing time, but with a construction payroll service like Payroll4Construction, you get even more benefits. With everything you'd expect from a standard payroll service plus construction-specific reports and features, we offer more of what your construction business needs.

Time is money, and Payroll4Construction can save you both.

Construction Reporting

When it comes to reporting, Payroll4Construction offers construction-specific reports you won't get from a standard payroll service. From standard new hire and EEO minority compliance reports to union tracking and certified payroll, you get them all with Payroll4Construction — no upcharges, no hidden fees, no surprises.

All you have to do is log in after each pay period and download the reports you need. You can even get customized reports so your data is tailored just for you.

Make It Even **Easier**

Integrations

Payroll4Construction saves you even more time through integrations with your preferred HR, payroll and timecard-entry software.

Our popular QuickBooks® integration tool imports a general ledger journal entry after each payroll. Log in, click to import and, just like that, your books are updated with all of your latest payroll information.

Combine Payroll4Construction with FOUNDATION® to easily manage all your jobs and keep data organized in one central location."

Support

At Payroll4Construction, our expert support team is never automated or outsourced. That puts us in control of the client experience for every step of the process.

Mobile Products

Combine Payroll4Construction with bonus products like the FOUNDATION mobile® timecard app or the eAccess employee portal to connect your crew to payroll, wherever they are.

 FOUNDATION mobile

Single Timecards

Clock in and out, or enter remote timecards with cost codes and earn codes.

Time Approval

Set approval paths that let PMs review, mark up, send back or approve timecards.

Grid Timecards

Submit hours for your whole jobsite, even multiple trades, crews and pay codes.

Signatures

Capture timecard signatures and verification to document safety and compliance.

Geotagging Clock In/Out

Record precise employee time and location on the job with geotagged clock-in and clock-out features.

Notes

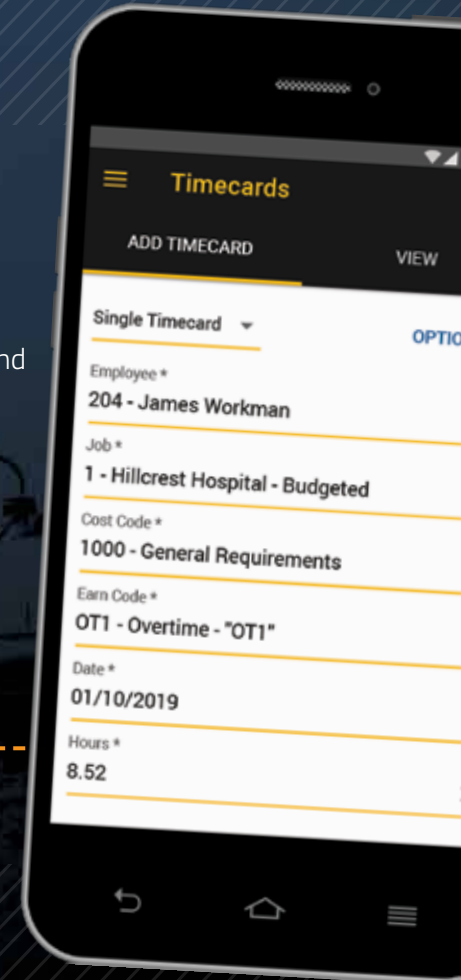

Save and manage notes by job and date with custom priority codes.

eAccess

Employee Portal

Employees can check pay stubs, timecard history and vacation accruals.

What the **Industry** Is Saying

But don't just take our word on the kind of quality experience you'll get from Payroll4Construction. Here's what some current clients of our award-winning company have to say about us.

"What they advertise to be is what they are. They know what affects construction companies as far as payroll, and that is really nice."

MICHAEL, Pine Ridge Technologies, Inc.

"I find the timecard entry so easy. And it's so easy to get help if you make a mistake. They always know who you are and get back to you right away."

TAMA, Bechter Plumbing, Inc.

"Certified payroll takes one or two minutes to complete, rather than being a three-hour affair. I used to track all payroll hours, compute the average daily payroll, split the deductions, etc., on an Excel spreadsheet and then transfer the same information onto the appropriate certified payroll form. Now, in a matter of a few short minutes, the system does it all."

MICHELLE, Tight Line Construction

THE PLAIN DEALER
