

Below are the system requirements for **FOUNDATION SaaS**® construction accounting software. FOUNDATION SaaS is compatible with Microsoft® Windows® (32-bit and 64-bit).

## RECOMMENDED DEVICES

**A laptop or desktop running one of these supported operating systems:**

- Microsoft Windows 8.1 Pro or Enterprise
- Microsoft Windows 10 Pro or Enterprise
- OS X® 10.9 or later

*\* Foundation Software does not support the configuration or compatibility of tablets, smartphones and other devices with FOUNDATION SaaS.*

## SOFTWARE FOR DEVICES

FOUNDATION SaaS uses Microsoft RemoteApp and requires the latest version of Remote Desktop.

## INTERNET RECOMMENDATIONS

FOUNDATION SaaS requires a broadband Internet connection of at least 3 Mbps down and 1 Mbps up per user.

## ADDITIONAL SPECIFICATIONS

- Microsoft Office® 2010 32-bit edition if using Outlook® Plugin (optional)
- FOUNDATION SaaS is compatible with laser printers only.
- Chromebook™ notebook computers by Google are not compatible with FOUNDATION SaaS.
- Please contact Foundation Software before converting to FOUNDATION SaaS if you use Microsoft Excel® or other third-party applications to query data from the FOUNDATION database.

**Note:** We recommend that your IT professional be present during the conversion to FOUNDATION SaaS.
