Below are the system requirements for FOUNDATION® HOSTED construction accounting software. FOUNDATION Hosted is compatible with Microsoft® Windows® (32-bit and 64-bit).

**RECOMMENDED DEVICES**

A laptop or desktop running one of these supported operating systems:

- Microsoft® Windows® 10 Pro or Enterprise
- OS X® 10.9 or later

*Foundation Software does not support the configuration or compatibility of tablets, smartphones, and other devices with FOUNDATION Hosted.*

**SOFTWARE FOR DEVICES**

FOUNDATION Hosted uses Microsoft® RemoteApp and requires the latest version of Remote Desktop.

**INTERNET RECOMMENDATIONS**

FOUNDATION Hosted requires a broadband Internet connection of at least 3 Mbps down and 1 Mbps up per user.

**ADDITIONAL SPECIFICATIONS**

- Microsoft® Office® 2016 32-bit edition if using Outlook Plugin (optional)
- FOUNDATION Hosted is compatible with laser printers only.
- Please contact Foundation Software before converting to FOUNDATION Hosted if you use Microsoft® Excel® or other third-party applications to query data from the FOUNDATION database.

**Note:** We recommend that your IT professional be present during the conversion to FOUNDATION Hosted.

**Note:** We follow Microsoft’s support and compatibility matrix.
